The Model ML-123 is designed for high performance but in a very portable format. The ML-123 projector gives you 2500 lumens of XGA (1024x768) resolution and displays SXGA (1280x1024) in compressed format. The ML-123 is HDTV ready. It projects vivid and rich video images using either 4:3 or 16:9 aspect ratio. It offers digital keystone correction to allow you to have a fully rectangular image at all times . Brightness, high-quality video, outstanding computer resolutions, and great pricing are what make MEGAPOWER your choice for projection.
